**Attorney:** Carrie R sent out information to everyone regarding the medical marijuana this outlines all the regulations that Metro did make effective. And then I included a link for the KRS code. That is what the State regulations are. BWV can do nothing and you'll governed by State Regulations or if you want to adopt Metro's regulations. Mayor tabled this subject so everyone would have a chance to review the information.

**Resident Input:** Mike asked if the new curbs are going in at 4636 Beaver Rd. He has a gravel area which is at the end of the street. Discussion and reviewed the map. No curb is scheduled to be installed. Needs yard waste picked up. Various discussion regarding curb plans that are being installed in order to protect the City's sump pump outflow lines which the city invested in a few years ago. The architect completed the study and determined the current curbs are what is the best designed to keep vehicles off the yards and breaking these pipes. Mayor will post the curb plan on the website with explanations. Other Bramton Rd resident stated that he did not like the style of the new curbs. Too high and would rather have the roll curbs. Mayor will obtain the explanation from the engineer regarding the design.
